

Inariyama, Kuwabara & Yawata District

The Flood and Landslide Hazard Map shows areas that may be inundated if the Chikuma River or rivers administered by Nagano Prefecture (Sawayama River, Sarashina River, etc.) overflow due to the maximum expected rainfall, and areas that may be damaged if a landslide or other disaster occurs. Check the evacuation sites and routes on this map to prepare for disasters. Also, actively participate in disaster drills organized by the community.
